Small Blessings Christian Preschool ignites the love of learning in every child. Our developmentally appropriate environment encourages children to explore and experiment, create and construct, form friendships and imagine a world of their own. Our joyful and respectful interactions embolden positive relationships between children, teachers, families and the community, while sharing God's light and love.

Our primary goal is to design an engaging and developmentally appropriate learning environment for children ages 3-5. By determining the needs of each individual child, we are able to differentiate our instruction to best meet these individual needs throughout the school year. Our theme-based curriculum focuses on the skills that are most important for preschool-aged children to develop. Using the Nevada Early Learning Guidelines and the Nevada Pre-Kindergarten standards, we help children develop confidence in language and literacy, math, science, social-emotional development, social studies, creative expression, physical development and health education.
